

The October 2014 Micro-Grant was awarded to the City of Fort Worth for its NeighborWood's Tree Planting Program. This program will help to plant about 1,600 - 5,000 trees in underserved neighborhoods which contain a high number of elderly and/or disabled residents.

There were 4 very good grants submitted for the December 2014 Micro Grant program. Based on the review and scoring of the Grant Committee, Keep McAllen Beautiful was chosen for their innovative grant of increasing awareness of trees and planting of trees as part of their 5 - 10k Run and Bike Race/Tour.

Bastrop RETREET V was selected for the January 2015 Micro Grant. This project will plant donated trees for victims of the 2011 Bastrop County fires utilizing volunteers. While the loss that the residents of Bastrop County experienced cannot fully be replaced, the planting of these trees and the support from RETREET and their volunteers will go a long way towards helping in the recovery.
